

UPDATE IN MEDICAL TOXICOLOGY

4th - 5th November 2016

Jury's Inn, Parc Place, Cardiff City Centre

This two day course is designed for those interested in medical toxicology including emergency medicine staff, specialist registrars, nurses (particularly those working in emergency medicine), laboratory staff, and specialists in poisons information who wish to gain expertise in the practical management of common toxicological problems. Other professionals working in the field of medical toxicology may also find the course valuable.

The course will be accredited for continuing professional development. Places are limited and early application is advised.

Topics include:

Medication safety - Prof Phil Routledge

Toxicity of household products - Prof Allister Vale

'Modern murder, manslaughter, and medicines' - Prof Robin Ferner

Paracetamol - where are we now? - Dr John Thompson

Novel Psychoactive Substances - Dr David Wood

Cardiovascular toxicity - Dr James Coulson

Paediatric poisoning - Dr Mark Anderson

Case studies in metal poisoning - Dr Sally Bradberry

Patterns of presentation and comparative toxicity of NSAIDs - Dr Ashraf Kamour

The poisoned patient in the Emergency Department - Dr Rupert Evans

Intralipid - Dr Arvind Veiraiah

Antidepressants - Dr Laurence Gray
